CERTIFICATED ELECTRICAL & MECHANICAL ENGINEERING

GEDIPLOMEERDE ELEKTROTEGNIесе & WERKTUIGKUNDIGE INGENIEURSWESE

Certificated Electrical and Mechanical Engineers are engineers who have obtained their engineering qualification via a Technical College, University of Technology or University and who have subsequently obtained a Government Certificate of Competency as Engineer (GCCE). AGCCE is a prerequisite for the appointment of an engineer as the person who accepts the responsibility for the safety of personnel and equipment on all Mines and Works and in Factories. GCCE's are issued by the Department of Minerals and Energy and of Labour to suitable qualified and experienced electrical (heavy current) and mechanical engineers.

Gediplomeerde Elektrotegniese en Werktuigkundige Ingenieurs is ingenieurs wat hulle ingenieurskwalifikasie aan 'n Tegniese Kollege, Universiteit vir Tegnologie of Universiteit behaal het en daarna 'n Staatsbevoegdheidsertifikaat as Ingenieur (SI) verwerk het. 'n SI is 'n voorvereis vir die aanstelling van 'n ingenieur om die verantwoordelikheid te aanvaar vir die veiligheid van personeel en toerusting by alle Myne, Bedrywe en Fabriekes. SI's word uitgereik deur die Departemente van Minerale en Energie en van Arbeid aan elektrotegniese (swaarstroom) en werktuigkundige ingenieurs wat oor die nodige kwalifikasie en ondervinding beskik.

ALTERNATIVE ROUTES TO QUALIFY FOR THE ENGINEER'S CERTIFICATE OF COMPETENCY: MECHANICAL/ELECTRICAL: MINES AND WORKS, AND FACTORIES
ALTERNATIEWE ROETES OM VIR DIE INGENIEURSERTIFFIKAAT VAN BEVOEGDHEID: ELEKTROTEGNIES/WERKTUIGKUNDIGE: MYNE EN BEDRYWE EN FABRIEKES TE KWALIFISEER.

*Foreign Qualification to be evaluated.
 Details of N1 to N3 at your Technical High School
 Details on N1 to N6 at your Technical College
 Details of Diplomas/Degrees at your University of Technology/University
